Governance Matrix: Response

Fill in the grid and the three questions, then return this

Marking: 1 if that Tradition governs the supply of that thing, **0** or blank if not. If you want to record strength as well, use 0.1 to 1.0, but do the zeros and ones first. The presence or absence of a mark matters far more than any number.

Grid

	Admission	Identification	Proof	Confidentiality	Counsel	Recipient	Continuity	Pressure
T1 common welfare								
T2 group conscience								
T3 open membership								
T4 autonomy								
T5 one purpose								
T6 no endorsement								
T7 self-support								
T8 non-professional								
T9 no organisation								
T10 no outside opinion								
T11 attraction								
T12 anonymity								

1. Did any row come out entirely empty?

Which, and did that feel like a finding or like a failure of the resource list?

2. Is the resource list wrong?

Is there something a group supplies that a member's recovery needs and that is not among the eight? This is a more serious objection than any individual cell.

3. Which cell did you find hardest?

To record

Have you read the book's Part Four, or any description of its argument? Yes ☐ No ☐

You do not need to put your name on this sheet. It will be filed under an anonymous code, and your name will not be recorded in the project.

Roughly how long did this take?

Did anything about the task feel wrong or badly posed?
